Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant called to discuss how examiner was reading Nulman et al. (6289915) and Suzuki (US 6305568 & JP2001-113963) on "said peripheral part defining an annular abutting surface defined by said first and second parts disposed concentrically one next to the other, said second part at said abutting surface projecting slightly beyond said first part at said abutting surface." The projecting second part, as shown in Fig. 5-7, represented a method limitation in a product claim and that when finally welded there wouldn't be a projecting portion as the surfaces of the first and second parts would be flush with each other.
